EXTINGUISHING MEDIA: In case of fire use CO., Dry Chemical, Foam or other National fire Protection Association approved method for treating a Class B Fire.

UNUSUAL FIRE AND EXPLOSION MATAROS: Resp containers tightly closed. Isolate from heat and flame. Due to pressure build-up closed containers exposed to extreme heat may explode. Never use a melding or catting torch on or near container (even empty) as product or its residue may ignite. During emergency conditions, overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention. SPECIAL FIRE FIGHTING PROCEDURES: Summon professional firefighters. Use full protective equipment including self contained breathing apparatus. Mater spray may be ineffective. If water is used, fog nozzles are preferable. If exposed to fire or extreme heat, water should be used to cool closed containers and prevent pressure build-up or possible auto-ignition. SECTION V - HEALTH HAZARD DATA THRESHOLD LIMIT VALUE See Section II EFFECIS OF OVEREXPOSURE ACUTE- Breathing: Irritation of the respiratory tract; headache, mansea, dizziness, meatness and fatigue. Extreme exposure can result in unconsciousness and even respiratory arrest. Skin or Eve Contact: Primary irritation. Smallowing: Cam cause stomach and/or intestinal irritation, mausea, vomiting and diarrhea. Aspiration of vomitus can cause chemical preumonitis, which can be fatal. CHROKIC- Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system datage. Prolonged and repeated breathing of spray mist and/or sanding dust over a period of years may cause dust disease of the lungs.

MEDICAL CONDITIONS PROME TO ASSERVATION BY EXPOSURE- Home when used in accordance with Safe Handling and Use Information (See Section VIII). X-SNALLONING PRIMARY ROUTE(S) OF ENTRY X-BREATHING Section V Continued on Next Page #S-10

ENERGENCY AND FIRST AID PROCEDURES

All Processors of the continued difficulty is breathing, leave the area to obtain fresh air. If continued difficulty is experienced, susmon medical assistance immediately. If breathing ceases, restore using approved CPR techniques and susmon medical assistance immediately. In case of eye contact, flush with large amounts of water for at least 15 minutes. Get medical assistance. In case of skin contact, wash area thoroughly with soap and water. Remove soiled clothing. Bet medical IF BREATHED:

IF IN EYES: IF ON SKINS

assistance if irritation persists.

DO NOT IMBUCE UDMITIMS, Consult physician immediately. Aspiration of vomitus can cause chemical pressors its which can be fatal.

WARHING: Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

SECTION VI - REACTIVITY DATA

STABILITY UNSTABLE INCOMPATIBLE TIVE

AZARDOUS DECOMPOSITION PRODUCTS: "AZARDOUS POLYNERIZATION

Avoid contact with strong oxidizing agents. May cause hazardous funes when heated to decomposition. Funes may contain carbon monoxide, carbon dioxide and oxides of metals listed in Section 11. MAY OCCUR X-MILL NOT OCCUR

SECTION VII - SPILL OR LEAK PROCEDURES

SIEPS TO BE TAKEN IN CASE NATERIAL IS RELEASED OR SPILLED: Remove all sources of ignition (heat, flame). Do not smoke, Avoid breathing vapors. Before attempting clean-up refer to hazard caution information in other sections of this material safety data form. Ventilate area. Contain spilled material and remove with inert absorbent and non-sparking tools. Store in closed containers until properly disposed of.

MASTE DISPOSAL METHOD: Dispose of in accordance with local, state and federal regulations. Incinerate only in approved facility. Do not incinerate closed containers.

SECTION VIII - SAFE HANDLING AND USE INFORMATION

RESPIRATORY PROTECTION: Do not breathe vapors, spray mist or sanding dust. When spray applied in outdoor or open areas with unrestricted ventilation, and during sanding or grinding operations, use MIDSH/MSHA approved mechanical filter respirator to remove solid airborne particles of overspray and sanding dust. When used in restricted areas, wear MIDSH/MSHA approved chemical filters designed to remove a combination of particulates and vapor. When used in confined areas, wear MIDSH/MSHA approved air supply respirators or hoods. Use MIDSH/MSHA approved respirators when flage cutting, welding, brazing and sanding material coated with this product. Follow respiration manufacturer's directions for respirator use.

UENTIALINE ME only with adequate ventilation. Provide control didution of local public ventilation and washing to the second of the second

respirator use.

Willialibit use only with adequate ventilation. Provide general dilution or local enhant ventilation in volume and pattern to teep air contaminant concentration below current applicable safety and health standards in the mixing, application and caring areas, and to resove sanding dusts of dried coating and decomposition product during welding and ilaue cutting on surfaces coated with this product. Newly solvent vapors should be resoved from lower levels of the work area and all ignition sources should be eliminated.

PROJECTIVE GLOVES: Do not get on skim. Solvent impermeable gloves to prevent contact are recommended. EVE FROJECTION: Do not get on skim. Solvent resistant safety eyenear with splash guards or sideshields is recommended to prevent contact.

OTHER PROJECTIVE EQUIPMENT: Do not get on skim. Solvent impermeable clothing and boots to prevent contact are recommended. NYSIEXIC PRACTICES: Remove and wash solved clothing before rease. Nash hands before eating, smoking or using the washroom.

SECTION IX - OTHER PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: Keep away from heat and flame. Do not smote. Prevent build-up of vapors by maintaining continuous flow of fresh air.

Do not store above 120°F or near fire or open flame. Store large quantities in buildings designed to comply with OSHA 1910.196. Keep container closed when not in use. Do not transfer contents to bottles or other unlabelled containers. Do not reuse empty containers. Keep out of reach of children.

The information contained herein is based on data believed by this company to be accurate, but we do not assume any liability for the accuracy of this information. We neither suggest nor guarantee that any hazards mentioned are the only ones which exist. Mayone intending to rely on any recommendation or to use any equipment, technique or material mentioned should also satisfy hisself that the can next all applicable safety whealth standards. Determination of the satisficity of any information or product for the use contemplated by any user, the namer of that use and whether there is any infringement of patents is the sole responsibility of the user.
